

# Grace Margate Liturgy

I drift in and out of awareness of your presence  
but I came to Margate and as I floated in the sea pool  
**I felt you and I knew you loved me**

*I Felt you And I knew You Loved me*

In the day to day and London life  
Your voice gets drowned out  
The stories and demands crowd you out  
But maybe I put on my blinkers  
And noise cancelling headphones too  
The smell of sea  
Your warm breeze remind me  
Holiday time  
**I never stopped loving you**

*I Never Stopped Loving You*

Carefree plans often get skewed  
Actions have unintended consequences  
We do not end up where we hoped to be  
But we pray that  
**Adventure awaits around every corner**

ADVENTURE  
*awaits*  
AROUND  
*EVERY*  
CORNER

May the coming year of Grace  
bring us the challenge and  
engagement of  
**New things and new tidings**

How far must love and mercy go?

**All the way**

How deep must forgiveness cut?

**All the way**

How far will God travel to be with us?

**All the way**

How far must we travel to be with God?

**All the way**

God says:  
Breathe deep  
Dream big  
This world is mine  
And therefore yours  
Imagine new possibilities  
Imagine health and wholeness  
Imagine creation made new  
Come and dream with me in  
**Dreamland**

*Be Faithful to your dreams*

Be faithful to your dreams  
And may your dreams be faithful to you  
May they lead you to wider adventures  
On rarely trodden paths  
**Be faithful to your dreams**

*I want my time with you*

When time divides me in many directions  
When i follow bright lights and starry signs  
When i value what's mine as only mine  
Let me focus time on unfound friends  
**I want my time with you**

The Grace community  
is spread all over the  
globe  
By keeping touch with  
friends we can hold the  
community together  
Perhaps in November  
**It's coming home**
